Minister's Cure

A MINISTER AND HIS LITTLE BOY CURED OF OUSTINATE SKIN DISEASES BY THE CUTICURA REMEDIES. PRAISES THEM IN THE PULPIT, HOME, AND IN THE STREET.

Cured by Cuticura

For about thirteen years I have been troubled with eczema or some other cutsneous disease which all remedies failed to cure. Hearing of the CUTICURA REMEDIES, I resolved to give them a trial. I followed the directions careully and it affords me much pleasure to say that before using two boxes of the CUTICURA, our cakes of CUTICURA SOAP, and one bottle of CUTICURA RESOLVENT, I was entirely cured a addition to my own case, my baby box, then though the months old, was suffering with what suppressed to be the same disease as nime, to

Loss Grows Larger.

Special to the Gazette. GAINESVILLE, TEX., May 19 .- Farmers in the city to-day from various parts of the country visited by the destructive hall storm Sunday, report the damage much greater than was first supposed. It is now believed that the damage to crops will reach \$500,000. The country destroyed lies in pertions of Montague, Cooke and Denton counties, and is said to be about fifty miles in length and from two to five miles in length. The only home for these fermores. breadth. The only hope for these farmers, many of whom have lost almost their entire possessions, is to plant cotton in the fields where the crops were destroyed and, so far as learned, most of them have commenced preparing the ground for cotton crops this season. Houses, fences and orchards were laid waste by the wind in every locality visited by the terrible storm. Rabbits, birds and other small animals were killed by the thousands by the hail stones, but no person is reported as having been hurt.

Another Destructive Storm. Special to the Gazette

BONDAM, TEX., May 19.—Reports come in to-day of another destructive hail storm passing over our county about 4 o'clock vesterday evening. This time it passed south of here and traveled from the northwest to the southeast, and extended to Bentonville, a small town five miles south of here, where it did great damage to all kind of crops. Further south, the report says, the storm increased and raged with great fury for a short time. Hall fell to the depth of six inches, totally destroying the cotton crop and greatly injuring the fruit and corn crops, if not totally destroying them. Farmers living eight miles south of here report the storm increasing in strength when it left their vicinity. Reports are meager, hence we cannot give you the length and breatth of the storm. Considerable half foll here vectority are manufactured. siderable hall fell here yesterday evening, but not enough to do any damage. Further reports from the storm north of here on the 18th show that the fruit crops are totally destroyed in places and farmers are busy replanting cotton.

In Grayson, Near Bells. Correspondence of the Gazette.

Bells, Tex., May 18.—Between 2 and this afternoon a considerable hall storm struck this vicinity. The hall stones were the largest ever seen in this place, but fortunately it went in a narrow strip and was of short duration. Most of the farmers in town since the rain say that they are not much damaged, except that fruit was knocked off considerably.

THE END OF THE WORLD. Special to the Gazette.

NEW YORK, May 19.-Lieut. C. A. L. Totten of Yale university, spoke last even-ing at a dinner of the Brooklyn Baptist social union on "The Infinite Accuracy of Prophecy," embodying in his theory that the world will end in 1899, and he backed up his predictions by quotations from scripture and a formidable array of figures. He turned to Apocryphal, Fourth Book of Azarius xiv, 10-11, sometimes included in the Old Testament. This divides the world's original to the large of the control of world's existence into twelve periods, ten of which had already passed. By a curious calculation, consisting of dividing certain years into lunar, and others into solar, Lieut. Totten has found that the age of the world as given them. world as given there by Azarius is 3530 years after Adam, corresponded exactly with his figures. By another division of the twelve, a new period was entered into 3696 years, the exact year of the birth of Christ. A curious annotation of one of the early fathers on the margin of an old copy of the Azarius calls attention to the prophecy and calculates that day which the figuring agrees with Lieut. Totten's arithmetic. The last year of the world, according to Azarius, will be 5690, or 1890, and the end of the time when sinners can repent, is 5652, or 1892. Lieut.
